

K-Love has made a huge difference in my life. This station has helped to me grow as a Christian. Everyday I learn something more about God and how I need to improve my life. This station has saved thousands of people, and has helped many people get away from the worldly music, my mom included. I was so happy when my mom finally decided to stop listening to other music, and only the music that edifies God. I know many more people who are thankful for that too. KLove is the only Christian station in my area, if it wasn't for Klove every time I would drive my car it would be in silence. By taking KLove off the air you would be costing people their life in heaven!
